Dear All,

Please find enclosed the latest update of our Agenda for the MLAIC delegates' meeting in Italy. As you may see, there are some (counter-) proposals which might help to discuss one or the other item a little faster. Beside that, the LRC-proposals have been integrate.

One or the other had problems with the presentation of Appendix F (rifling lengths etc.) in PDF as the original was an Excel list.

Therefore, I am sending this time the original Excel list, hoping that this will be more clear and easier to be presented on your computers.

Of course, for any questions you may have, I shall be at your disposal.

Best regards,

Gerhard

PS: I hope that now everything is complete and I am looking forward to seeing you all in Italy.

Gerhard Lang
